**About Group Demos**

**A reference player focussed on operational skills and the economics of knowledge**

Group Demos is one of the French leaders in continuing education. Based on its core business, Demos has developed innovative and complementary training methods such as e-learning. Other activities relevant to the economics of knowledge also enrich the Group's offer, and in particular competence-management consultancy and the distribution of educational content.

**An activity whose model is a success and can be duplicated outside France**

Demos is present in 15 countries and in France's major towns and cities. Indeed, the Group's external growth policy has proved itself efficient and now enables the Group to both offer its existing clients support outside France as well as develop new local international clients. The Group's market is flourishing, its offer is diversified, its standards in terms of quality are high, it is permanently innovating and the business model is both flexible and high-performance, all of which render this Group the second French player on the adult education and training market.

**Regular and profitable growth**

In 2006, Group Demos generated revenue of 58.5 million euros, a 45% growth compared to 2005, for an operating income of 5.1 million euros and net income group share of 2.3 million euros. In H1 2007, revenue amounted to 36.1 million euros, for an operating income of 1.8 million euros and net income group share of 0.35 million euros.
